Over-all Production Chief & Creative Consultant
• UC Center for Creative Productions (UC CCP) •

*The Traditions, the Rites, the Rituals of
• The Indomitable People of the Cordillera •*

• from an Evolving Contemporary Perspective •

The celebration of life in the Cordillera is rooted in the culture of caring for nature & the environment. It is not by chance that the dances from the 6 provinces that compose the region depict movements of the different elements of nature. Even in the common livelihood of farming, there is always profuse celebration; as it is a form of assurance that abundance and preservation of nature's heritage brings forth richness in one's cultural heritage . . .
